NOTICES.

If this comes to the attention of Lee Sheehan, known as Shanty Sheehan, formerly a member of Local 585, he would confer a favor by communicating with Casey Diviney, Business Agent.

Local Union 558, Box 402, Sheffield, Ala.

Owing to the fact that more than (10) ten per cent of the members of Local No. 349 are at present idle and that we are having trouble on Government work in our jurisdiction, we are forced to put into effect Section 8 of Article 14 of the International Constitution national Constitution.

Edwin B. Davis. Rec. Secretary, L. U. 849. 419 Bay Street, Miami, Florida.

The California Oregon Power Co., of Medford, Oregon, (and including Oregon and California territory) which have been on the unfair list since November 19th, 1917, have been put on the fair list again. (Oct. 1, 1918).

Yours fraternally,

E. G. Henselman,

Secretary, L. U. No. 651.

423 King Street, Medford, Oregon.

Around the Circuit

I am writing you to let you know that the linemen working for the Central Illinois Light & Power Co., here in Peorla got a five cent raise to take place the 1st of November. It makes linemen, 58 cents per hour; wagon foreman, 62 cents per hour; construction foreman 63 cents per hour. Conditions to remain the same.

Yours fraternally,

F. Burrell.

F. Burrell.

Lineman's rate with Fire and Police Department, Scranton, Pa., has been increased by Local 81, from \$4.00 to \$5.20 a day, eight hours. Wiremen from \$5.00 to \$5.50 a day, No. 81 was assisted by general or-ganizer Smith.

Local 354 of Salt Lake have received an increase in pay from \$5.60 per day to \$7.00 for eight hours. Their agreement did not expire until May 1, 1919, and the increase is a voluntary one on part of employers.

Local 83a, Toronto, have reached a settlement with their difference with the Bell Company at Canada; this settlement is reached through the Board of Conciliation established under the Industrial Disputes Act.

putes Act.
Organizer Noble assisted the local union in presenting the case. Greatly improved working conditions and substantial wage increases are provided in the settlement. The agreement reached is the first agreement betwen the Bell Company in Canada and the Brotherhood.

Assisted by Executive Board Member Swor, local 500 of San Antonio, Texas, have obtained an increase in wages of \$1.00 per day from the Public Utilities of San Antonio.

Local 201 of Connersville, Indiana, have recently entered into an agreement with the Light and Power Company of that City, the Light and Power Company of that City, and the various contractors, providing for a wage scale of 65 cents per hour, eight hour work day. Patrolmen were increased from \$78.00 a month to \$130.00 per month. Union shop conditions prevail. Electrical workers are the first craft in Connersville to obtain the 8 hour work day.

The Electrical Workers of Houston, Texas, assisted by Executive Board member Swor, have completed negotiations which provide for an increase in wages of \$1.00 per day. The settlement also effects the Stone and Webster Plant, and the work controlled by this concern, will now be under strictly union conditions.

Local 589, Saskatoon, assisted by Vice-President Ingles, have obtained a new wage scale for the Light & Power Company of that city, which provides for 9 cents per hour increase for linemen and twelve cents per hour increase for meter men.

EDITORIAL

FINANCES. How many members have given any thought to the question of finances of the I. B.? We all know too well that the purchasing power of the dollar has shrunk until it looks like a well worn "four bit" piece and due to this unfavorable appearance of the good old dollar we all have been required to employ some method of earning more such dollars to offset this diminished purchasing power.

However the Brotherhood has not as yet found any method of increasing the number of dollars necessary to meet this situation, but the expense of carrying on the Brotherhood's business has increased in the same proportion as

have the expenses of any other institutions.

The revenue to the International is based on conditions that existed five years ago and was considered barely sufficient to properly carry on the business at that time and those of our members who have taken sufficient interest in the Brotherhood business to understand the situation will readily appreciate that revenue that was hardly sufficient five years ago, is totally inadequate now and has been for nearly two years.

The past year has offered the best opportunity for promoting organization work that has ever confronted the labor movement. The I. B. has taken every possible advantage of this opportunity and much constructive work has been accomplished, notwithstanding the fact finances would not permit the increasing of our organizing force, in fact the services of some organizers were discontinued where the number should have been greatly increased in order to carry on the work to the fullest extent possible.

Again the revenue of the organization has been reduced somewhat over four thousand per month through exempting our members from per capita pay-

ments who are serving in the army and navy.

Then again our death rate has been unusually high. Many have given their lives in the struggle for Democracy. The "Flu" epidemic has exacted a heavy toll. More death claims are being received in a week at present than heretofore was presented in a month.

Most of us will naturally ask what is the solution? The answer is for the general membership to give. Increased revenue is one remedy, local unions have found it necessary to double and in some instances treble the amount of dues. Therefore the remedy applied by locals seems the only one to apply to the International.

However we don't feel it necessary to increase the I. O. revenue the same proportion local unions have, but know if the International per capita was increased a reasonable amount, the constructive results would be gratifying to all.

Cheap organizations usually produce cheap results. We don't feel that cheap results have been the harvest of the Electrical Worker, but if the organization had adequate finances the additional benefits would be surprising to all.

Think it over boys. Let us hear your opinions.

PEACE. The signing of the armistice, the preliminary step to concluding peace between the forces of democracy and autocracy brought to the world the most gladsome tidings in the history of civilization. The victory was celebrated throughout the larger part of the world and even

some of the German people received the news with some degree of enthusiasm, and well might the entire people of the Central powers be gratified over the victory of right, for after all they will be the ones to profit most, as the yoke of autocratic steel that bound them to the monarchs will has been destroyed for all time to come.

The German people now have the opportunity to establish a peoples government and feel the comforting warmth of liberty's fires. For this privilege thanks can only be due to the democratic forces that willingly gave their all to defend the freedom we love and at the same time spread its benefits to those that endeavored to destroy it.

The victory brings with it some unusual results. Republics are established over night, nations ruled for years by stronger nations have come

into the right of self government once more.

The defeated enemy we find reduced to a pitiful state of destitution crying for food and we find ourselves and gallant allies cheerfully taking up the task of feeding those who for four long years, pillaged, plundered and murdered without mercy. Quite the reverse of the adage "To the victor belongs the spoils", for in this war the spoils will go to the defeated, and

the spoils are that greatest of all treasure human freedom.

While we all should be proud of a magnanimous spirit there are however certain essentials that must not be lost sight of. It is human to place a value on anything in proportion to the cost and it would be criminal to allow the German mind to consider all the benefits received are a result of the devastation of neighbors property. The German people should pay to the last farthing for the destruction wrought by them so that not alone justice will be done their victims but that the German mind can be brought to a realization of man's duty to man. To accomplish this a new philosophy for German study is necessary, the philosophy of equal human rights, a subject foreign to German thought and practice.

GOMPERS' The greatest reception ever accorded, a representative RETURN. of Labor was tendered President Gompers on his return from Europe. Participating in this reception was not alone representatives of organized labor, but men of all walks of life, Cabinet Officers, Senators, Congressmen, Governors of States, Educators, Lawyers, Employers, etc., a gathering truly representative American.

It demonstrated that the Nation understands and appreciates the part labor has played in winning the war. Its representatives have cheerfully assisted

not alone at home, but abroad.

The value of President Gompers' efforts in Europe can not be calculated, but his visit had the effect of defeating the Pacific aim of English laborites, who apparently felt content with peace at any price and in addition greatly strengthened the morale of the English and French working people.

The labor mission to Italy which President McNulty was a member of,

also met with success in their efforts in that country.

Such visits can bring but one result'for labor, the establishing of feelings of fellowship that can not help but prove beneficial to the toilers of the world in the future.

In-fluenza. And closed our meetings October 5. Since then, with the exception of the Executive Board and Business Agent and a few who can't get out of the habit of leaving home on Tuesday evening, the gathering comes within the law. The Financial Secretary, J. F. Farrel, has a "flu" mask, so no one who has money due the Local need be backward about appearing with same, with the excuse that Jack wouldn't care to take it.

Former Governor Folk found out what the people of St. Louis thought of him on November 5, to the tune of about 20,000 votes. Also, Prohibition was given a knockout with \$7,600 majority in St. Louis I forgot to announce last month that Brother J. T. Farrel is now Financial Secretary. Jack's address is 3712a Natural Bridge Avenue.

retary. Jack's address is 3712a Natural Bridge Avenue.

It is with regret that we announce and we extend our sympathy to Brother J. T. Rapp, our Treasurer and Building Trade Council Delegate, who had the misfortune to lose his father last month.

The engineers, firemen, steamfitters and electricians employed at the Union Electric Light and Power Company are out on strike because their grievances of some time back were never taken care of. Brother Jennings reports that the men will be back very soon with things to their satisfaction. The men have been misled into a fake union known as the Employe's Mutual Benefit Association. Its charter states it is an organization for social, literary and religious advancement. It is, used by the officers of the company to control employment and regulate wages. The men are striking to get away from this association and have their union recognized.

Roy Lash and his men on the Kreske job are working a la Government job hours, and if they don't stop very soon we will have to get the Humane Society after them.

Jimmy Price and Tom Carey returned to
St. Louis two weeks ago from Nitro and
recruited several men to return with them
but it seems now that they failed to return

but it seems now that they failed to return themselves.

Sam Murray has entered the service and gone to the aviation field at Garden City, N. Y.

I can report that Brother E. C. Sennison, who enlisted over a year ago with the Canadian forces, is safe and well. He has a clerical position at headquarters and is a corporal. His address is: E. C. Sennison, 2006817, Canadian Eng. C. E. F., Canadian Engineers' Training Depot, Seaford, Sussex, England.

Erne, oldest son, is in the U. S. Cavalry, stationed in Texas, and the younger son is waiting for a call from the motor truck service for oversea duties. Mrs. Sennison has lost a brother in the English army, so the family is sure doing its share in the war. Erne reports that he had word from former Brother Bradley, who enlisted in the English army early in the war and who served in the campaign against the Dardanelles, and was now in Egypt and Palestine, in the fighting against the Turks.

Brother R. Killian has returned from France, bringing several captured souvenirs. He has gone to San Francisco as an instructor.

Local No. 1 has announced an auto raffle for our used 1917 Ford touring car to be held December 3. Tickets 50 cents to local members only, but the Executive Board gives me permission to state that our boys who are away on travellers or in the service may take chances on same, so how many do you want? You will nearly get your moneys worth on the ticket alone for they are as big as a bill and green too.

Brother H. J. Morrison and O. E. Jennings as delegates from Local No. 1 attended the Missouri State Federation of Labor at Sedalia.

Brother Morrison was reelected second Vice President. Of special interest was the Workman's Compensation bill to be introduced at the next legislature. The State Federation has tried to get a bill each session for about six years that would satisfy all delegates interested, but this year is the first that all agreed to work for the bill as finally adopted.

The bill favors monopolistic state insurance, eliminates the waiting period, compensation at the rate of 66 2-3 of wages.

In case of death lump sum to defendants selection of your own doctor at expense of employer, also \$200 allowed for burial expenses if no dependants. The State Federation also indorsed a resolution to bring before the legislature a bill to protest linemen at work on high tension

The Electrical Workers of the State had nine delegates at the convention.

Respectfully, J. B. Hayes,

Press Secretary.

L. U. NO. 4, NEW ORLEANS, LA.

Editor:

Despite the serious handicap of the influenza, we are still in existence and doing business at the same old stand. Our Convention Committee is working hard to make our coming Convention in the winter capital of America one of the largest and most harmonious that the Brotherhood has ever seen. Brother Rippard (130 Press Secretary) and myself have both been appointed on the Joint Convention Committee to keep the Brotherhood informed as to how we are progressing. The "flu" has handicapped both Locals to a certain extent and also the Convention Committee, as the health authorities ordered all churches schools and places of amusement closed during the epidemic and forbade public gatherings and meetings.

Guess it's that way all over the country. The Convention Committee reports progress so far in our endeavor to raise funds to entertain the visiting Delegates and their families during their stay in the land of Dixie and the Sunny South. We are going to raffle an inner piano player, and if we

are successful at that we will then raffle an auto. If any of the Brothers or Locals desire to take tickets on this piano raffle they can do by either notifying No. 4 or No. 130 and we will gladly send them to you. The date of raffle and the winning number of ticket will be published in our

number of ticket will be published in our Journal.

If any of the Locals which have had our Conventions in their cities can suggest ways in which they raised the coin they will confer a favor on us by doing so through the columns of our Journal.

Expect in my next letter to have something important to report to the Brotherhood. At the present time in New Orleans the city has granted the N. O. Rys. the privilege of raising the car fare to 6 cents and also to increase the rates on electricity 10 per cent and on gas 30 per cent. Organized labor here has taken the matter into the courts to stop them by trying to get an injunction against them. The case has not come to trial yet and the company has put the new rates into effect since October. We have three (3) Delegates in the Central Trades and Labor Council and they have been instructed to oppose this move on the part of organized labor and to vote in favor of the railways company being allowed to proceed the its new rates. The railways company has granted increases of salary to all of its employes and therefore its operating expenses have increased to nearly seven figures (7) per annum more. Therefore, they should be allowed to increase their rates, so they can pay the increased salaries. Organized labor in other branches has received large increases in salaries and their employers have had to raise the price on their propay the increased salaries. Organized labor in other branches has received large increases in salaries and their employers have had to raise the price on their products, and not a murmur was heard against them. The railways company, like us, have had to meet the increased cost of all kinds of material used in the operation of their system, and therefore are entitled to increase their rates.

system, and therefore are entitled to increase their rates.

No. 4 goes on record as being opposed to organized labor of other branches than our own fighting against increased rates for railways, gas and electric corporations. Let them concern themselves over their own affairs. How would they like for us to fight their employers in the courts to stop them from raising the rates on their products? Do you think they would get a raise in salaries then if we do now? Nit. It strikes me they would koller for us to stop—enough. That's what we want them to do, is to drop this suit against the company for an injunction. The trouble is that some of these bum attorneys out of a job and wanting some coin have put the mischief into their heads.

We will see it through on the floor of the Central Trades and Labor Council, through our three (3) Delegates.

Work here is plentiful, both inside and outside, but a paid up card is your credential that you need to get it. Wishing all Brothers and Locals success, I am fraternally yours,

Ed. M. Smith,

Press Secretary.

Well, just another line from battle-scarred Local 22, to let you all know that we are still fighting our fight for democracy, here and abroad both. Also fighting the fight against Spanish influenza with the rest of them.

the rest of them.

News is scarce, mainly because there are not very many left to make news. Many of the boys left in the last month for the second line of defense, and among them are Brothers C. A. Anderson, Art Cronemyer, Less Harmon, N. J. Hurley, A. C. Krelle, Ben Kohn, Fred Lenz, Vic Linquist, J. Stoncypher, J. F. Roach and two or three more, all who have left in the last couple of months for shipyards and

other war industries. Brothers Harmon, Stoncypher, Krelle and Norton are at Nitro, W. Va.; Brother Lentz at Washington, D. C.; Kohn in New York City, and the others scattered throughout the country

country.

Brother McFarland is just out of the hospital, where Uncle Sam had him carved up preparatory to giving him a gun, instead of a pair of pilers to play with. Old War Hoss Jim Brown is just out of the hospital, after being submarined by an attack of appendicitis. He is reported doing fine and will soon be back on his old job. Johnnie Theil, who was secretary of the Elevator Constructors for several years, and known to many of our boys, was buried Saturday, failing to survive an attack of the Spanish influenza in one of the camps.

years, and known to many of our boys, was buried Saturday, failing to survive an attack of the Spanish influenza in one of the camps.

Local No. 22 has not had a meeting for two weeks, on account of the town being quarantined, and no churches, schools, lodges or theaters are open, and the only thing that is going on in this town is the open air meetings of the Liberty Loan. It sure costs money to go to them, but it is money well invested.

Omaha is not yet over the top, and I think that a word in The Worker to let the Brothers over there know why would not be amiss at this time, so they can put the blame where it belongs. The first week of the drive Omaha's biggest advertising graft was on (Ak-Sar-Ben Carnavel), and the good Business Men's Association and the Gommercial Club deemed it best to wait until after it was over for fear that some of us might fail to spend a nickle with them, and then the health commissioner closed up the town, making it tough sledding to get to the people. Then the daily press say that there are not enough large subscriptions, and I guess it is so. If the man with the dollars would give like the man with the pennies there would be no trouble in raising double the quota.

If the Brothers in the service will keep us posted as to their addresses, they might profit by it, as every once in a while one of the Brothers forgets he is not in church and adds a dime or a quarter to the smoke fund. Then usually he will cuss again for good measure and add another smoke for the boys, but then it takes quite a bit of cussing to make smokes for thirty of the men in the service.

Well, guess I will pull the switch, with the best regards to the members of old 22, wherever you are, from the boys who are still in the old town trying to keep up conditions and wages for you when you come back.

Riley, Press Secretary.

L, U. NO. 22, OMAHA, NEBRASKA.

Editor:

Well Brothers there is little this month as the Flu had us closed up all month and as there were no meetings there were no chances to get any as the Executive Board are putting out nothing.

One thing certain is that Omaha needs more money and it is about time that we started in on a raise. Six dollars a day is but an aggravation these days and as our contract runs out in a short time it is time to get busy and if we do not ask it is a sure thng that they will not ask us if we want more money.

There is a Labor scout in here from Camp Grant and I understand that several more of the boys are going. If very many more go there will not be many of the old Guard of No. 22 left.

Brother Beck was in town today and I understand he is to go to Camp Grant.

The Flu took one of the members of Local No. 22. Brother Ward who was a new member and also his baby died but a couple of weeks before.

Brother Jim Brown is on the job again and I think that Brother McFarland is

getting O. K. again, though I have not seen him for some time. Brother Tom Wise had the Flu and was off for a month but is back to work again. Bro. Heine Miller has another increase in the family. The Athletic Club Building is now populated with rats and amongst them are Ex. Brother Solander. The Non-union Decorators from Orchard & Wilheim started again on the job some time ago and all trades except the Plumber and Steam Fitter left the job whether or not they belonged to the Building Trades Council and the Building Committee saw fit to try and finish the building without the assistance of Organized Labor except the said Plumber and Fitter also at the request of Government Conciliator Thomas Barker. Bro. Gib offered to supply Luhr & Luhr with men for the State Hospital job but the offer was refused and the Business Men's Association have a finger in that pie and are trying to work the State Job open shop, but the War Labor Board is on the job now and we will see if the Omaha Kaisers are all powerful with Uncle Sam.

It looks as though we will have a meeting this week and there may be some more news next letter, but this is all the correspondent can get hold of for this one. There is no great scarcity of men in Omaha at the present time and there are very few jobs also. The new Skinner Packing is about all there is new and several of the brothers are getting down on their knees and doing shot gun work in old houses. Yours truly among them.

Riley.

L. U. NO. 23, ST. PAUL, MINN.

Editor:

Well the Twin Cities have two new locals, namely No. 88a and 89a, composed of Telephone Operators and judging from the vim, vigor, pep, etc., displayed by the members of these new locals, the Brotherhood has gained two valuable acquisitions. We started to hold a big dance in St. Paul for No. 88a, but have had to postpone it on account of the Influenza Epidemic, which is not so bad here, but precautionary measures had to be taken to prevent a big spread of the disease. Local No. 23, as a result of Broach's campaign here, is at present the largest local (excepting Telephone Operators) in the Twin Cities, but at the rate No. 24 is progressing, it will soon leave No. 23 in the rear. We are now negotiating for increases with all the companies here and as soon as we get matters settled, I will advise what has been accomplished. I wish to thank the secretaries of the locals that have sent me data in regard to wages, etc., in their respective districts, as the data furnished is worth considerable to us.

I would have written a personal note of thanks to the secretaries, but am kept too busy so take this means of expressing thanks and acknowledgment. I have been given to understand that there are several big telephone organizing campaigns underway at this time, and if all are as successful as we have been here, uptodate, I can readily see where "Mother Bell" will soon attach her signature to a National Agreement. With the Bell Company in line, the others will follow along without causing any trouble, as in my opinion the Bell Company has a great deal to say what the wage standard will be, at least it appears that way to rie, as the Light Companies generally raise their wages first and the Bell follows with an increase, generally 25c per day lower than the Light scale. There is some talk of amalgamating No. 23 and No. 24 going the rounds, but don't believe such a scheme would work out very succassfully now, as the companies have divided their districts so that No. 23 and No. 24 now cover each company, instead of

having jurisdiction over part of each. The Light men received a 50 cents per day increase, which makes their rate \$5.25 for eight hours and we are planuing or getting more in the near future Locals No. 292 and No. 110 are still doing business and progressing along very nicely and have rendered valuable aid to us in various ways. I would like to hear from Brothers Andy Ruddy, E. J. Nichols, Geo. Dempsey and Carl Koechner, and other explive wires of old No. 23. I lost your letter Palmer, so write again and I'll try to answer it next time. Well this is all for the present and hope next time to tell you some good news. some good news. Fraternally yours,

Casey.

L. U. NO. 30, ERIE, PA.

Editor:

As this is the first from L. U. No. 30 in over a year, will say that things in Erie are in pretty good shape, only the money. Our wage question has been in the hands of the National War Labor Board since June 26. We are receiving 62½ cents per hour and asking 75 cents which we are justly entitled to as the living conditions in Erie are without a doubt about the worst in the country. Our men at the Home Telephone Company are receiving 60 cents per hour, this is 9 hours, 4 ways. We are starting to organize the Bell and by the next issue hope to have 100 per cent for the linemen in Erie.

L. U. No. 30 has fourteen boys in the service of good old Uncle Sam also \$500.00 in Liberty Bonds, \$209.00 in baby bonds and the members hold about \$9,000.00 in all issues, so we that are left at home are trying to do our bit. If the brothers that were working in Erie from June until they were laid off by the Erie Lighting Company will only drop a card and will keep them informed what the War Labor Boards decision is as we are expecting it any day now.

Boomer Davis take notice through the

Boomer Davis take notice through the efforts of Brother McBrennan we have organized a R. A. R. club of fifteen members to start with and will have a delegation at the next regular convention. Would like for him to write the writer of this as members want a pin or button.

Before closing would say that last spring during our trouble we called on the International Officers for assistance which was gladly given, and we owe Brother John J. Dowling and Brother G. M. Bugniazet a note of thanks. Hoping this is not thrown in the waste basket.

Fraternally,

L. U. NO. 38, PROVIDENCE, R. I.

Editor:

Well it seems that the efforts of the common enemy, InFluenza, that has been playing such havoc amongst the people all over the country is about ended, as we have a very good indication that next week we will have a meeting for the first time in several weeks. But thanks to Providence Local No. 38 has been spared the suffering that so many organizations have suffered. I believe up to date there is only one actual case of Influenza that has proven fatal to one of our members, although we are very sorry to say that we have lost four of our dear brothers in the past four weeks. weeks.

weeks.

Our friend Secretary is about overloaded with business that is to be taken care of at our next meeting and we hope very much to be able to hold a meeting next Tuesday night.

This little old maintenance section is growing right along and on account of the big campaign that the A. F. of L. is conducting for the Steel Mill men we are go-

ing to grow some more. There is a lot of Maintenance Electricians in these Steel Mills that heretofore we have been unable to make a very big show with that are going to eome into our organization through this campaign. The steel mill electricians have never gotten their just dues, and they are certain to join the movement. We expect in the course of four months to have every electrician in the city in our local. The Mill Electricians all over the country ought to be encouraged to join a Union for we all know what the tactics of the steel corporation have been in the past and it is sure to come after this war is over, which by the way seems to be about all over except that jubilee that the Sammys expect to have in Berlin in a very short time. It's too bad that old Kaiser Bill isn't gong to last

out of the Union when it was first started by the Telephone Companies are coming back and determined to stick it out, and that's the spirit that wins these days.

The initiation fee of the Maintenance section was raised to \$25 last month, but that didn't stop the new men from coming in, as they are joining fast and in a very short time the Maintenance men of Cleveland will have an organization that will rival the best of them. Sorry to state that we haven't any word from the war toard yet but Brother Groves got after Mr. Walsh the other day and we expect results most any minute.

With best regards to you all,

Here and there we will find individuals, sometimes groups of men, condemning the actions other men take. No one should be silly enough to deny them that right, for we know that some criticism leads one to perfection. But I, for one, will resent any criticism which is not just.

A couple of months ago, L. U. No. 58, went on record to bid all travelers a farewell. We have imposed an assessment of fifty cents a day on those who leave their home towns for districts where a living wage is being paid. And we done that with a purpose in view.

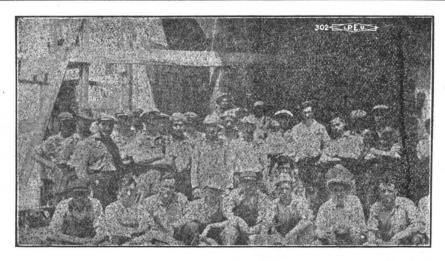

Here, in the city of Detroit, where millionaires are made over night but 25 per cent of the workers are receiving a liv-Here and there we will find individuals,

ing wage. The men engaged in war orders are not receiving the \$1,000 per year as advertised in newspapers. Their scale is still dated from 1914 which is between 45 and 55 cents per hour. It is only the hours that have changed. One can work as long as his physical body will allow him without the interference of the boss, and it is that overtime that swells the pay envelope to about \$40.00 a week or in majority cases less. Such system, hewever, one could hardly call living. It brings us back to the old system where a man was sold at so much per head to be the sole property of the buyer.

We who understand the new phase of the war baby in the City of Detroit, realize that someone is trying to push us back to the good old days of chattle slavery. We are sparing no effort to counteract that

This was a case of what I would call plain murder on the part of the doctor who first handled the case, as Irving was allowed to walk about the house and even out in the street up till two days before his death, and even though his fever was so high that he was out of his head, yet this old "saw bones" said Irv was getting along well. The family called in another doctor late Friday evening, and immediately ordered the removal of our late brother to a hospital, where he died this morning (Sunday, Oct. 13).

Irving was at all times a willing worker, and even up to the hour he died, never considered himself sick enough to forget his work, and when he was irrational, he was

L. U. NO. 113, COLORADO SPRINGS, COLORADO.

Editor: Colorado Springs has had its share of the Spanish Influenza, and Local No. 113 working with the tools, and even though Irv was out of his head, he knew more about his trade than the first doctor that

about his trade than the first doctor that attended him, did of the medical profession, as Irv had pneumonia at least three days before the family changed doctors.

Brother Hastings had long been recognized as the fastest all round ball player in the State of Colorado, and had turned down the State of Colorado, and had turned down many offers from professional clubs. He pitched in the City League here this year and his pitching and heavy hitting was directly responsible for his team winning the pennant, in fact the last time Irv came to bat he knocked a home run. When Irv was in his last hours, one of the boys sent word out to him that the score was tied in the last inning and he needed a home run to win his game, but Irv was not even given a chance to strike out, but was "beaned" by the so-called doctor.

In the loss of Brother Hastings, we feel

that the City Electrical Department, as well as our Local, loses a valuable member, and Irv's place will be hard to fill.

At this time, Brother Hastings wife is very sick and his little daughter is also in bad condition, so the brothers can all see that Local No. 113 is clothed in sorrow.

With kindest wishes from Local 113.

Not much news this time, as we are not holding any meetings on account of the medical health officer's closing order. No public meetings of any kind can be held here on account of the Spanish influenza. Kindly note the death of Brother James Tample, influenza; Brother W. Grassick, influenza; son of Brother W. McCoullough; son of Brother V. Bonser of Windsor, formerly of Local 120, who came here on a visit and died quite suddenly; also wife of your servant, R. McArthur, P. S.; and a large number of our brothers sick at the present time. So please excuse me this time. May have a more clear think tank next month. Things are transpiring so fast here that I am dizzy-headed, seeing and hearing things.

L. U. NO. 122, GREAT PALLS, MONT.

Editor:

United in spirit and purpose, workers of America, the safety of that battle line in France depends mainly now upon us. We must furnish the majority of those in the trenches. We must build the ships that carry the troops and munitions of war, regardless of hidden dangers. We must maintain the life line of ships on the high seas which connect the fighting forces with our natural bases of supplies. We must make the guns, the munitions, the aeroplanes. We must have ready food, clothing, blankets. We serve in the great industrial army that serves overseas for the fighting forces. We must do all these things because principle is involved that has to do with all we hold dear. We are fighting against a government that disregards the will of the governed, a government that pries into with its supervision over the smallest details and dominates all of them. We are fighting against involuntary labor, agains the enslavement of women and the mutilation of the lives and bodies of little children. We are fighting against barbarous parasites of war upon civilian populations, killing the wounded, the agents of mercy and those who bear the white flag of truce. We are fighting for the ideal which in America is equal opportunity for all. We are fighting for political and economic freedom, national and international.

and economic freedom, national and international.

We are fighting for the right to join together freely in trade unions and the freedom and the advantages represented by that right. Our country is now facing a crisis to meet which continuity of war production is essential. Workers decide every industrial question, fully mindful of those men who follow Americans who are on the battle line facing the enemy's guns, needing munitions of war to fight the battle for us at home.

No strikes ought to be inaugurated that can not be justified to the men facing momentary death. We all expect that some time between now and the new year the kaiser will throw the white flag in the air.

Local No. 122 is not holding meetings now on account of the epidemic of Spanish influenza. All public places are closed. There are from 15 to 20 deaths here every

day. It costs something to die in this section of the country. It looks like some one is getting rich on short notice. You can only buy a single grave and it will cost you \$35 and \$112 to have it dug.

We have several members on the sick list, but only one death from the Spanish influenza. This is one of the finest falls we have seen in Montana since 1902. It is the same as Indian summer.

Everything in the electrical line is going along good. Everyone is working. Smelter running full force, not an idle man in town. We have a few union men running for office and we hope they will all be elected. Electrical workers all over the country should get busy and make a drive to organize the unorganized. This is the time to build up your Locals. Don't be slackers. We owe this to the members who are over there fighting for democracy, so when they come back they will know that we, too, have been doing things to make life a little easier for them.

Fraternally yours.

Editor:
Suppose this letter is long overdue, but real news has surely been scarce. We have not had any meetings for over a month, not even a meeting of the Executive Board, this occasioned by the fact that all public gatherings have been forbidden in this city, owing to an epidemic of the Spanish influenza which has surely raged here. Twelve of our members here in Portland have been sick with the influenza and very sick, too. All, however, are now getting along fine. It is, however, with extreme regret that it is necessary to report that in the case of two of our brothers pneumonia developed and was finally fatal.

Brother Edward W. Chasse, who was in

port that in the case of two of our brothers pneumonia developed and was finally fatal.

Brother Edward W. Chasse, who was in training at Camp Devens, Ayer, Mass., was the first to go, he passing away on September 26, 1918.

Brother William H. Littlefield died at his home on October 11, 1918, after a short illness. Both Brothers were just in the prime of life, and it is hard to realize that neither of them will again require our password. but it is some comfort to know that no password or credentials were needed to gain them admission into the Higher Life into which both have entered, and we can only say that the relatives of both have the genuine sympathy of everybody who knew these boys.

Government ownership has not as yet seriously affected us, either for good or bad, moving along in about the same old channels. No construction work not absolutely necessary is being done, maintenance work is always about the same, and about the same number of new installations seem to come along in spite of predictions that the new schedule of service charges inaugurated by the Government would be the means of causing prospective subscribers to get along without 'phone service. The answer seems to be that times are prosperous, wages good and people are willing to spend their money.

Local No. 123 was nearly 100 per cent strong on the Fourth Liberty Loan, every member but one or two seeing his way clear to subscribe for at least one fifty-dollar bond (\$50.00).

We receive news often from our Brothers in the service and all are enjoying fine health and are all doing their bit and more when called upon. Let's not get careless in the matter of letters and postals to them all, as we all should realize that a "line from home" is the best of cures for homesickness. Better send that card or letter now.

Editor:
Since writing the last letter to The Worker the Local in meeting assembled has instructed me to write another for the purpose of saving some Brother considerable expense and the consequent disappointment that results from spending hard earned money without obtaining the expected results

that results from spending hard earned money without obtaining the expected results.

The necessity for the letter being written came about in this manner: At our last meeting one of several Brothers who had deposited traveling cards with us recently asked to have the floor for a few minutes and stated that he was very much disappointed with New Orleans and the working conditions prevailing here. He had just quit a job in the East which paid \$91 a week with the overtime, because he had heard that mechanics in New Orleans were making \$128; and besides the nature of the work and the plant in which he was working did not appeal to him. He also wanted to avoid the cold weather. After making the long trip he found that the best he could hope for was a straight week, with now and then a day or two overtime. Another visiting Brother arose and stated that he, too, had made a long trip as a result of the same kind of misinformation that prompted the first Brother, and that the best he had been able to do was to make \$28.50 as a result of working five full days and a half day Saturday.

Now, the point which we wish to make clear is that immediately after making up your mind to come to New Orleans in search of work you should address a letter to the Secretary or the Secretary Business Agent, inquiring about prevailing conditions and the probable amount of money to be made. Your letter will be promptly answered, and if men are needed you will be so informed. At such times as men are needed the Local inquires of the various Locals as to the number of men that can be supplied by them, always informing them of the maximum number that can be placed. Therefore, anyone contemplating a trip in our direction should drop us a line to that effect, and then rest assured that he will be notified if his services are needed. Hoping that this letter will serve the purpose for which it is intended, I beg to remain,

As I missed getting copy in the last issue of The Worker on account of the influenza, will try and get back in line. The influenza has been real bad here and everything has been closed for over three weeks, and of course Local No. 136 could not hold any meeting. We expect to have a meeting soon, and no doubt the Local will hear of a number of Brothers who have been down with the "flu." I think the cause of all this sickness is that some one left the door open, and of course "in flew enzie." But things are getting back in shape now and we expect business to get good again.

In flew earle. But things are getting back in shape now and we expect business to get good again.

There is nothing rushing here at present, but all the Brothers seem to be getting regular work and good wages. Local No. 136 had planned to give a nice "blow out" and hold an open meeting and invite all the telephone and non-union electrical workers, but of course on account of the influenza had to postpone it until a later date. We expect to increase our membership and will make it interesting for the telephone boys and any electrical worker who wants to do the right thing.

Guess I will have to close the circuit for this time and hope to have some real good news for the next issue. With best regards to the Brotherhood, I am,

L. U. NO. 182, CHICAGO, ILL.

Editor:

The Bridgetenders of Chicago wish to state to all the public and brother members of the craft some of the many drawbacks of their craft. There are great many people who look on the bridgetender as of old. A person too old to work at any other occupation, only fit to lounge around the bridge shanty with a lot of old cronies and discuss the daily topics, as they are discussed in the country grocery store, a hangout for the river rats with an occasional can of beer to keep them company and the discussion going, until a swing would come then all hands on deck to help with the swing. These conditions did actually exist under the old system of wooden type center pin swing bridges, and special political appointments. Under the old system the bridge shanty was very often the sleeping and eating house of the bridgewater, for bridges were let out to political spoilsmen who were mostly saloonkeepers and the pay was such as compelled the men to use the bridge houses as their living quarters. He was hired directly by the saloonkeeper who had the bridge under the administration in power, and who generally never was a clamor for reform and even among the spoilsmen themselves who always had to fight for the job. But now the old wooden bridges have gone and so has also the old mule which used to help the bridgeman at 95th Street, Chicago, Illinois. For proof of this statement, I refer you to any old resident of the district in around 95th Street Bridge.

But now things have changed. Rules and regulation of a new erg of progress.

For proof of this statement, I refer you to any old resident of the district in around 95th Street Bridge.

But now things have changed. Rules and regulation of a new era of progress have come. Bridges are under the civil service and a componene efficient force of engineers, and officers in the Harbor Master's office who inspect the bridges almost daily. Now Chicago lead the world in bridges as has long been the cynosure of the entire world, and the envy of their construction. In this city we have the latest and most types of improved life bridges, and the cost of some of them are moderate. Here for instance was the first double decked trunum life bridge ever attempted and was constructed by its own engineers. I refer to the Lake Street bridge which is a double deck one for passengers and surface cars. The upper deck for an elevated railroad and cost over \$1,000,000, which was some \$250,000 less than a contractors price. There is another one of the same type under construction at Well Street, Chicago. Has some forty-two other bridges of the tromson and bascular type which cost from \$250,000 to \$800,000 apiece. Those bridges require men trained in knowledge and skill to

operate them, men who are alert to the safety of the public traffic because the life of the public is often in danger and one little neglect on the part of the operator might cause the loss of life because they have to move quickly is the busy rushing affairs of the Chicago people. The proper care and operation of these bridges require attention to oil, clean, and watch, so they are always ready for operation. With these great changes has working conditions changed? But very sorry to say, brought very little in the men's favor in regards to working conditions. Although they have an eight hour law, many have often to work 12 hours, as in the case of their partner being sick and not able to report for duty. They also have to work 365 days in the year, which the southern slave owner would not permit his slaves to do. The pay of some is far beyond the average, now paid to common laborers. Now some of our opponents of our rights will say: "If you do not like the job why do you not quit?" Our answer is we will not quit until we are forced, because it is the aim of this generation to improve this one which will make it better for the next to come after us.

I am happy to tell the Brotherhood at large that we are making fine progress taking in new members most every meeting night, and good husky fighters at that too. The U. S. Now is the time for all of us to help make our brotherhood as strong and as true, as a price of steel. I am sorry to say that we do in the course of time run across some men who are not fit to be on this grand old earth of ours, and I am going to tell you of some in this letter that we have working down this way. To-wit they are William Likenrood. A Henry Douglass and a Mr. Jackson, all working now for the S. C. Palms Traction Co., living at Mount Pleasant, S. C. Brothers these rats were in Mr. Jackson, all working now for the S. C. Palms Traction Co., living at Mount Pleasant, S. C. Brothers these rats were in our local and even had an agreement drawn up which I sent to the I. O. for approval, and before it came back they received a raise of 50 cents a day, making this man Likenrood draw \$4.00 for 14 hours a day, and the other two \$3.50 a day and the same hours. They have paid no dues since the middle of June, 1918 and now before they can even look at a union hall's door, they will have to come across with a \$100 fine aplece. Brother, the Huns would not be seen with such rats, and we down here would not use a Hun for shark bait, as a shark is a bit to respectable. Brothers Mason and Hanger want linemen. They are paying 70 cents per hour and double time for Sundays and Saturday afternoon. If any brother traveling this way will see me, I will take them up to meet as square a little superintendent (Mr. O'Neal), as they will ever want to meet.

Well here goes with a little news to all the Brotherhood through the Journal. Am glad to see so many interesting letters in the October Worker with so many nice wage increases, but there is room for improvement yet. Since the high cost of living is more than double the wage increase and especially in this "Neck of the Woods" I understand that ship yards and navy yards are to receive a ten cent raise on the hour in a short time, which will give "juice slingers" 80 cents per hour. Our present scale is 70 cents for navy and ship yards. I believe the wage adjustment board is to put all mechanics on a 80 cents an hour scale in order to put all wages on an equal basis.

Will answer several brother's letters

an hour scale in order to put all wages on an equal basis.

Will answer several brother's letters through the Worker. Have received several inquiries as to work here in the navy and shipyards. Will say that we can use (10) ten card men in Navy yard here at once, which is steady work with plenty of it to do. The shipyard wants men but am not in position to say just how many. I myself am employed in Navy yard. Work eight hours per day, with 1½ time for overtime, and Sundays; double time for holidays. Working conditions are very good here, but housing facilities are not the best in the world. Furnished rooms are really scarce, but guess one might rustle up a couple. If any of the boys would like to come this way, please write Mr. H. A. Byrd, Recorder Labor Board, U. S. Naval Air Station, Pensacola, Florida, for a set of civil service papers which he will send you by return mail. He has authorized me to say that the Government wants (10) ten electricians at once. The class of work that we do is both inside and outside and a lot of underground installation.

Very few poles to hike since we are putting everything underground. There is both construction and maintenance work to be done, but a crew of men is employed by each department, therefore construction men doesn't do maintenance work. Any brother coming this way will have to pay his transportation, since the Government doesn't pay it, unless authorized to do so at Washington.

Col. Alexander assured our committee every consideration. He said that there would be Government men on the Muscle Shoal Plant to investigate our demands for better conditions and increase, in our scale. If conditions after due consideration warrants the increase it will be allowed.

Last meeting night the chairman of our Washington committee stated that Capt. Sullivan, the army officer in charge here, asked for an extension of time to Wednesday night so we gave him until Thursday noon, a half day more than was asked for. Wednesday morning the S. O. S. was sent out to the effect that the Air Nitrates Cor. ask all electrical workers to meet at the theatre, on the grounds, for a mass meeting. This we did, the heads of the different departments came in after we were assembled. Our chairman finally succeeded in getting one member of the Nitrates Heads to respond to the occasion. This gentleman gave us a small amount of fourth of July oratory, etc., then they left us to our own degressions.

They know that we had decided Sunday at noon in case we did not get some consideration. Although business in this neighborhood is pretty good, the brothers deemed it necessary (for reasons I cannot mention) to place a ban on green tickets (traveling cards), so I thought it a good plan to have it printed in the Worker, thereby notifying brothers of the I. B. E. W. who were contemplating coming this way. That unless they hold a five year card, their traveller would not be accepted by Local No. 588, at the present time. Just as soon as it (the ban) is lifted I will notify you.

The flu raised the dickens with quite a number of our members, but I am glad to report nearly all are back to work.

If there are any good housewiremen communicate with us within the next couple of weeks maybe they could be fixed up, but don't forget (five year men only). There is a job pending, 77½ cents per hour and double time for overtime.

Guess I have said enough for my first trip so will play submarine and submerge.

Just a short letter to let you know that Local No. 600 is still alive and doing. We are having no trouble in taking in new members, but on account of the Spanish Flu we have been unable to hold any meeting for the last five weeks, but we have about fifty applications on file and expect to have as many more, as soon as the quarantine is lifted. We are going out to close up the town and don't expect any great amount of resistance in doing it. Everything looks favorable for a move of this kind lure. We have a good live bunch of officers and are giving them good support. We would like to have the I. O. look a little more closely at the matter of shipping the monthly buttons. We did not receive the October, and now the members are calling for November buttons, and they have not arrived, as yet. We hope you can arrange to get the buttons here, in the future so that we can give them out the first of each month. It helps to keep the men in good standing. Have not much more to say at this time, only to mention that we have taken out five hundred dollars in Fourth Liberty Loan bonds and are trying to build up a fund to protect our sick and disabled members. Hope to see this printed in the Worker and will have more to say mext month, with best regards, I remain,

L. U. NO. 697, HAMMOND, IND.

Just a few lines this month to let the Brotherhood know that we are still on the Brotherhood know that we are still on the job, although things have slackened up considerable since the last letter; but all of the boys that are here are still working, and it looks as if things would remain about normal for some time, unless the ending of the war stops all construction, which I do not believe it will do.

Quite a few of our Members have migrated toward the rising sun, where it seems there is some essential work going on at the present time, and when their work is finished there, we hope they will return to us again.

return to us again.

Local No. 697 mourns the loss of our first member, to be called from us by the grim reaper (death), as Brother Frank Cosgrove was called from our midst on October 14th, after a short illness with the Spanish Flu and Pneumonia, and we feel the loss greatly as Brother Cosgrove started as an apprentice when a boy in 697 and by diligent work and study, became one of our best journeymen and foreman, and at the time of his death was our financial secretary, so his record in the Local will prove the esteem by which he was held by all our members.

The organization of the Iron & Steel

The organization of the Iron & Steel Workers is again on the move after about a month's delay, on account of the Flu ban, and we hope for the success of the organizers in this move.

Well news is scarce here, so I will close by saying (as I did last issue) some of the rest of the news editors (Press Secre-tary's) get busy now and let us all hear from you.

With best wishes for the success of the I. B. E. W.

I missed the Worker last month and Uncle George Daubroskey called my hand right before the meeting. I tried to make him believe that I had a letter in the Worker. He being one of the lucky brothers in receiving his, also one of the brothers that read the Worker there was no chance for me to get away with it. I thought the best way for me to do is have a letter in the Worker.

The Local held its first regular meeting Wednesday night the first one in four weeks. The town was closed up on the account of the Influenza. There was hardly any of the members that were not down with it. The Local mourns the loss of Brother Les Wilson and the wife of Lee Meyers.

Meyers.

Meyers.

The Local has another agreement with the Light Company and all other employers in this district, calling for an increase of one dollar per day. Following is the new scale for the members of Local Union No. 66: Foreman, \$7.00; Journeymen, \$6.00; Cable Splicers, \$7.00; Trouble men \$6.00. The plant men received an increase of \$10.00 per month. We have the 44 hour week, double time for all overtime between 8 p. m. and 8 a. m., Sundays and holidays, Time and one-half between 5 p. m. and 8 p. m.

Time and one-half between 5 p. m. and 6 p. m.

The above scale and conditions took effect October the first, 1918.

Quite a few of the boys have left to work on Government jobs. About all the Government work in and around Houston is completed. We could use a few more men on the Light job which is one of the best jobs in the Southwest.

The Local has been trying to organize the Bell boys here, but up to the present time we have not made very much progress.

ress.

We hope to have them all lined up in a very short time as they are beginning to see their mistake, and they are about to see the light of day. They are still working for the sum of \$3.50 per day, the toll line men are still receiving the large sum of \$40.00 per month and their beans.

Every job in and around is a closed job now with the exception of the Bell and we are taking in new members every meeting night.

This is about all the news of interest

This is about all the news of interest at this time and I will try and let the Brotherhood hear from us again next

Local No. 716 has just closed an agreement with the contractors and employers calling for one dollar increase which makes the scale seven (\$7.60) per day. Same taking effect on November the first

We have also received the new award for the shipyards which is not satisfactorily and it will be our efforts to bring this work up to the standard. Our city was closed up for three weeks on the account of the epidemic but the conditions are now somewhat improved. Local No. 716 mourns the loss of Brother Bulls and Bro. A. W. Miller.

Work and conditions in and around Houston have been good and we are looking forward to continue. Quite a few members have left for other places to work for the Government. When the snow begins to fly they will all come back. The Local has about 30 members in the service and most of them are now in France. The way things look now it wont be long be-

fore they all will be returning home and it will be a big day when they do as Local Union No. 716 has been looking out for their welfare by buying Liberty Bonds, War Saving Stamps, also giving to the Red Cross and all other organizations that are looking out for the boys over there. By the time that this letter is published it will be all over and it can be said what it takes to do it, the boys from the good old U.S. A. have got it.

Secretary W. J. Peters was down for a week with the Flu. This is the first time old Bill has ever given up and missed a meeting. He says it will be considerable longer before it gets him again.

It is with regret that we make known to the Brotherhood the death of the wife of J. M. Stevens, better known as Crip. Brother Stevens died a year or so ago, leaving a wife and three children. Mrs. Stevens was taken siek and died after a few days illness leaving the three children.

About all of our members are up and around again after being laid up with the Flu. At our last regular meeting we had 50 members present and it is beginning to look like the membership is beginning to see that it is to their interest to attend the meetings. We hope they continue to attend.

Not having much time I will close for this time hoping to let the membership hear from us again next month.

It has always been a known fact that the first impression is the one that lasts, so I will at least appear in the November issue, which may enable me to get by later on.

Issue, which may enable me to get by later on.

Brother I skipped the October Worker, through my own carelessness. Gee whiz the time flies in this "Yak time Savage" country. First thing we know we will be living like Eskimos in snow huts out here. By the time this reaches the boys in the Worker, I feel justified in saving that the freeze will be at its best, killing all the orange trees and the baboons will be making for the tall timbers.

Local No. 731 held a smoker and banquet which certainly was a success. Boys there is something funny attached to a smoker. It seems to smoke all the boys up to the meeting just before it begins smoking. All seemed to enjoy themselves and regular meetings may be attended from now on.

smoking. All seemed to enjoy themselves and regular meetings may be attended from now on.

Boys in my last writeup, I spoke highly of the union men we had in No. 731. Now I am very sorry to say that the local also has its share of card men and we are trying our best to educate them. They seem to have the right line of gab, but when it comes to a real show down, there seems to be something missing or else they have forgotten the obligation they took, for they are just common ordinary selfish. Another thing I want to take a rap at these card men for this. Why do you want to be afraid to ask a jungle stiff coming in and working alongside of them where he has been working and why he did not carry a ticket before?

These cobblers seem to be quite common in this neck of the woods, and they are always ready to take advantage of the condition the poor hard working brother has gotten for him and I consider him nore than an industrial thief.

Should any of you brothers in Duluth, Superior, St. Paul or Minneapolis, see any

Should any of you brothers in Duluth, Superior, St. Paul or Minneapolis, see any of these would-be Electrical Workers coming this way, try and educate them first.

They seem to have the same old one long story, "There was no local where they came from." Yet when you get to talking to them they have not been sod-busting all their lives and can tell you all about the cities and they the majority have nerve to say that they make good "jack", but did not belong to a union. Boys it is often the case where they make good jack —but some time some of the jungle hounds have went in and scabbed it where some union men were out for more than the ex-scabs good jack. ex-scabs good jack.

Brother thoughout the country, keep your eyes open for these non-union and card men. Organize them now, educate them now, or what will we be up against when work is not so plentiful. Get them while the getting is good.

the getting is good.

Some card men seem to amuse themselves greatly by telling the boss everything he knows about some other fellow. Never stops to consider that only for the other fellow that he would be working longer hours, less pay, and that the boss would be ready to can him just for talking on the job (loosing time). The first thing we know we are an agitator in the boss's eyes, and finally the card man has one job and we spend good cold cash for R. R. fare to help organize in some other locality. Shortly after that we can read in the Worker where local so and so is no more. Then the big guy is well pleased because he can see more dollars going into his own greedy pocket.

Brother once more I want to ask you,

because he can see more dollars going into his own greedy pocket.

Brother once more I want to ask you, try and help keep these card men from International talk, as this company which owns the town is just acting to kill our little union and the remark has been made by a card man to several of the brothers, that he can either make or break the union. Just think of it and carrying a card too. I have often wondered if the card men and the scabs will ever start a union of their own. Yes you card men, I am putting you in the same boat with the scab, until you wake up and if you don't wake up your boat may sink and then you will try and blame the union for it. Don't ever think you can't lose your job, as anyone with common sense knows that the employer can get along nicely without you and scabs are quite plentiful to take your place. Turn over a new leaf and start life anew and the whole brotherhood will be proud of you.

We had a few mishaps during the past

be proud of you.

We had a few mishaps during the past month. Brother Hoban and myself received a nice flash while cutting over a 550 motor hot and as usual the Company said it was our own fault. Accidents are not supposed to happen to a working man. This little accident would not have happened had we the right equipment to work with and I guess the brothers that have worked with me in various cities know it was accidental. This little accident has cost me a little over \$65.09. Had to go to Minneapolis to see an eye specialist, as the burg here has a bunch of would-behorse doctors. Yet the company has nerve to say that there is not a doctor in town as the burg here has a bunch of would-behorse doctors. Yet the company has nerve to say that there is not a doctor in town but they let me go and spend my own money to consult one, so I will have no come back at them. Some day I hope that a working man will have something to say about the laws in Minnesota.

Oh! yes. While in Minneapolis I met Brother H. II. Breach and he was just as busy as ever. Organizing the telephone operators this week. I wish you all sorts of good luck Brother Broach.

Well hows it is getting close to the next

Well boys it is getting close to the next day, so I will close, wishing the whole Brotherhood the best of success, I remain

Boys Howdy? Yes here we are, all from Arkansas and we didn't take the slow train either. Instead we sprung into existence like mushrooms, all in a night. Of course it had a beginning like most things. First, somebody began talking. Then we got in touch with Brother Philips at Sedalia who wrote us to "keep talking" that he was "coming". A few days later he blew in and invited any and all who were interested to meet at his room that night, at eight. Hoping to get two or three of us rounded up for membership in the Sedalia Local. But at 7:45 the boys began crowding into the little room as though coming to a Possum Roast. After he had stacked us three deep on the bed, chairs, trunks, etc., Red—I mean Mr. Philips began to talk and the rest began to smoke. Of course he began to tell us of the advantages of being in a Union and carrying a card. etc. But the faster he talked and the thicker the smoke grew, the more restless the bunch got until somebody broke in and informed him that we had come there bent on organizing a local and didn't need any coaching. So he got us shaped up and started to filling out application blanks. It took so long that many of the boys left but we got about 37 applications and 21 paid initiation, death assessment and dues for a month before leaving.

We have as fine a little local as ever sprung up over night. We have secured our charter and supplies and paid all assessment and have something over \$150.00 in the treasury.

With all good wishes for the success of

I received the War Service card before leaving the States and could not find time to write to acknowledge same, so wish you to O. K. same upon receipt of this letter. At the same time insert letter in The Worker, stating to all future Brothers who expect to enter the service that before sailing they want to stock up with smokes and sweets, as they are not to be had as plentiful as the individual would expect.

Also, take and wear all the knitted articles they can get hold of, as they sure come in handy when coming in contact with the changeable air currents that cause different temperatures. Do not plan on anything but keeping warm and the feet dry and I am sure sickness will be averted. Don't try to drink it all before you embark, as they have it over here, and besides it is to your advantage on the water. Eat enough of good food and stay on deck as much as allowed and keep away from the railing and looking at the water, and then you won't have to feed the whales. I myself was not sick a moment and the above is what I followed. Don't eat everything and too much of anything, as poison is anating around for us. Don't go heavy on the water, on boats or strange places; drink only enough. I myself have had a lot of water experience and find this method O. K.

Please extend to the Brotherhood my best wishes and tell them not to hesitate to contribute to any of the organizations asking for help for people over here, for they sure need it, and the Y. M. C. A. and Red Cross are most worthy, if any of them are. Don't be afraid to give plenty, as the Lord knows you fellows are getting more than the men in service and a lot more than the children and women of the war area get, so loosen up and give till it hurts.

Don't holler about Hooverizing or saving gas, for the folks at home sure get a lot more and cheaper than it is over here. Thousands of kiddies swarm about us on march, begging for pennies so they can exist. Personally I have talked to a few growning that almost depend on the

The general welcome that a fellow gets over here is "Ello, Sammy," and "Yanks are here." While on march a fellow is greeted with the question from the kiddles, "Say, Yanks, have you any cents?" This at first is thought of queerly, but becomes a joke, yet it comes from the mouths of hungry children.
